This is Matieland

Stellenbosch University (SU) is a premier African learning institution that is committed to finding solutions to global challenges and changing the world around us for the better.

Our vision is to be Africa's leading research-intensive university, globally recognised as excellent, inclusive and innovative, where we advance knowledge in service of society.

Guided by this vision, we invite our students to join us in moving forward together towards an inclusive environment that acknowledges our role in South Africa's past and encourages all to help create a better future. As a community of global citizens connected through curiosity, we provide a transformative experience for both students and staff to grow and develop together.

The University's research output has doubled in the past decade, and we boast more centres of excellence than any other higher education institution in South Africa. We are extremely proud of these achievements, as they help deepen our impact on society, our continent and the rest of the world.

From an initial four faculties (Arts, Science, Education, and Agriculture), 503 students and 40 lecturing staff in 1918, SU has grown into a thriving university with 32 225 students, 3 400 lecturing and professional support services staff, and ten faculties spread across five campuses.

Vice-Chancellor -
Prof Wim de Villiers

Among the best in the world

Over the past few years, Stellenbosch University has consistently appeared among the best tertiary institutions globally on the subject-specific world university rankings of **Quacquarelli Symonds (QS)**, **Times Higher Education** and **ShanghaiRanking**. These rankings use different methods and indicators to assess universities' performance.

Planning your day

Plan your Open Day schedule [#whoyoubecome](#)

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

General logistics

UNIVERSAL ACCESS

We'll gladly provide universal access to guests with mobility challenges who need parking close to faculty venues. Please inform us ahead of time by sending an email to events@sun.ac.za.

PARKING

Stellenbosch:

- All the security booms at our on-campus parking areas will be lifted (as they usually are on a Saturday), so you should be able to find centrally located parking.
- There will also be ample parking available at the Faculty of Engineering. This parking area is accessible from Bosman Street and is within walking distance from all the other Stellenbosch-based faculties as well.
- To be safe, do not leave any valuables inside your vehicle in plain sight of passers-by.
- Please do not park on sidewalks or in non-designated parking areas, as this might attract a fine from municipal law enforcement.
- Note that there may be sporting events taking place at Coetzenburg sport complex, which might affect traffic flow to and from Stellenbosch. Please allow sufficient time to get to your venues.
- If you choose to park around Coetzenburg sport complex, look out for the shuttle service running to and from the central campus.

Tygerberg:

- Please enter through the main campus entrance. Ample parking is available close to the Faculty of Medicine and Health Sciences' Education building, where most of the day's activities will take place.

REFRESHMENTS

On Stellenbosch campus, refreshments will be available for sale:

- at the Neelsie Student Centre (central campus);
- at the mobile coffee vendor in Ryneveld Street;
- at the mobile coffee vendor on the corner of Neethling and Victoria streets;
- at Chalkboard (Faculty of Engineering); and
- inside the SU Conservatoire.
- Guests attending the Open Day on Tygerberg campus will be able to purchase refreshments in the Tygerberg student centre.

MATIE SHOP

Purchase the latest Maties apparel at the Matie Shop in the Neelsie student centre or at the mobile stall in Ryneveld Street.

ASSISTANCE ON THE DAY

- You will find ambassadors along all major Open Day routes running between the different venues. They will be identifiable by their white T-shirts and branded lanyards.
- All faculty staff will also be wearing lanyards and should be able to assist.
- Medical assistance will be available on both Stellenbosch and Tygerberg campus. For assistance on Stellenbosch campus, please go to the Conservatoire, 45 Victoria Street. On Tygerberg campus, the service will be available outside the Tygerberg student centre building.

Activities for the day

General session

The Division of Student Recruitment offers a range of services to the prospective student market – from subject choice and career counselling to consultations on the process and programmes on offer. The national recruitment team is also responsible for school liaison and the favourable positioning of the University in diverse markets.

Join us for a one-stop all-you-need-to-know session that has been specifically structured to offer a general overview of the University, together with step-by-step guidance on how to navigate the application process. Get all the information you need on how to apply, on-campus accommodation options, and student funding.

Time	Title	Faculty Unit	Venue	Duration
09:00 10:00 11:00 12:00 13:00 14:00	What sets SU apart, and how to navigate the application process	<i>Division of Student Recruitment and a panel of representatives from our Central Admissions Office, Residence Placement Office, and Centre for Undergraduate Bursaries and Loans</i>	JC Smuts building, A201 (English) JC Smuts building, A203 (Afrikaans)	30 minutes

Specialised walk in-sessions

The **Disability Unit (DU)** facilitates a range of support services for students with disabilities and any specific learning needs. A walk-in service will be offered at Den Bosch (39 Victoria Street, Huis Simon Nkoli House) from **10:00 to 13:00**. Come meet the staff and have your questions answered.

International students and students following international curricula

Come meet the admissions officers for students following international and other curricula (other than NSC and IEB) and get answers to any questions pertaining to your application. International students will also be able to meet the team from SU International, who offer support to our inward mobility students. This service will be available between 10:00 and 13:00 in the Krotoa building (enter from Victoria Street.)

↓ Some general pointers for booking your ticket

The Open Day is a **free event**. (Quicket will still refer to payment, but you won't be charged.) Nevertheless, to avoid disappointment and ensure guests' comfort and safety, booking is essential for **tours and information** sessions.

Consider the following when booking your ticket:

- 1 Bookings are restricted to one student and two adults. (In the case of twins or multiple siblings, please make two bookings.)
- 2 For school group bookings, please email our Central Events and Conferencing Office at events@sun.ac.za with details of the sessions you wish to attend and the number of seats to be reserved.
- 3 Carefully consider the programme and allow enough travel time between sessions and venues.
- 4 Doors will close 5 minutes after the session has started, after which no guests will be permitted to enter the venue.
- 5 No guests will be permitted to leave sessions early, as this disturbs fellow guests and the presenter.
- 6 Consult the campus map to determine your routes and timing between venues.
- 7 Should you be unable to attend a session (or the day as a whole), please cancel your seat to allow others the opportunity to attend.

How to navigate the QUICKET platform

Consult this 'How to' guide for instructions on navigating the Quicket platform:

To get you started, follow these simple steps:

- ➔ Go to the Quicket home screen.

- ➔ Use "Stellenbosch University | Open Day" as your search keywords.

- ➔ Click on the tickets button for the tickets screen to open up.

- ➔ Choose the faculty or general session you wish to attend. REMEMBER to click on "Show info" for a description of the session.

- ➔ Select the ticket you would like to purchase, and follow the steps as prompted. You will also be asked for your permission in terms of the Protection of Personal Information Act (POPI) to collect data such as your home province/location.

TOURS AND EXHIBITIONS: STELLENBOSCH CAMPUS

FACULTY OF AGRISCIENCES

Tour name	What to expect	Time	Duration	Location
Smart agriculture for food security	See how smart farming is used to improve food security. The HortiDemoCentre, which opened in 2022, enables us to show students the most relevant technologies in greenhouse hydroponic production.	09:30 11:30 13:30	30 min	HortiDemoCentre at Welgevallen experimental farm
Conservation Ecology Department	Experience the Department and the Faculty of AgriSciences, and meet the staff and students who actively participate in the Conservation Ecology and Nematology disciplines.	13:00	40 min	JS Marais building, foyer
Unlocking genes. Unlocking the future.	Take a tour through our modern molecular laboratory, greenhouse and plant growth chambers to see how we use different modern techniques to improve the DNA of plants to produce enough food for a growing population. Be inspired to become part of a global alternative.	09:00 11:00 13:00	30 min	HortiDemoCentre at Welgevallen experimental farm

FACULTY OF EDUCATION

Tour name	What to expect	Time	Duration	Location

Stellenbosch University Library

Do not miss out on a tour of the Stellenbosch University Library anytime between **9:00 and 14:00**.

Medicine and Health Sciences Library

Visit the Medicine and Health Sciences Library on the Tygerberg campus. Open: **10:00-16:30**.

SU Advantage

SU Advantage is a revolutionary online supplementary educational platform created by the Stellenbosch University Centre for Pedagogy which provides additional educational support and tutorship for learners in grades 10, 11 and 12.

Our platform combines short, effective content with live interactive educational support that is focused on the most important topics that learners need to understand in order to excel in school.

Visit SU Advantage on the Rooiplein (next to the Neelsie Student Centre) to find out more about the solution that can revolutionise the educational experience for high school learners across the country.

Maties Sport and Maties Gymnasium

Maties Sport will have a stall on the Rooiplein (outside Neelsie student centre, Stellenbosch campus). Swing by to meet our sport managers and student athletes from the High-Performance Unit or to find out more about our Recreation and Active Lifestyle Unit and the Maties Gymnasium.

Private accommodation

Meet with the following private accommodation institutions to find the accommodation option that best suits your needs:

- My Space Residence
- Academia
- CampusKey

Venue: Rooiplein

Also on offer:

Other training institutions in Stellenbosch:

- CTU
- Stellenbosch Academy of Design and Photography

Venue: Rooiplein

HOW OUR LANGUAGE POLICY IS APPLIED IN TEACHING AND LEARNING

We know that many of you will have questions about how our Language Policy is applied when it comes to teaching and learning at Maties and what to expect. When we talk about language at Maties, our goal is to help you develop a multilingual mindset.

Our Language Policy is one of the vehicles that we use to foster a diverse campus community. Through the policy, we can increase equitable access; promote multilingualism and the appreciation thereof and facilitate sound learning and teaching.

Stellenbosch University (SU) also serves continental and global communities, and for this reason we have committed ourselves to promoting multilingualism by using the three official languages of the Western Cape, namely Afrikaans, English and isiXhosa.

In December 2021, the SU Council (that's the structure responsible for things like good governance and policymaking) approved a new Language Policy after an extensive consultative process. The purpose of our Language Policy is to regulate, manage and govern language use throughout our institution.

The three foundational principles of the new policy are based on our belief that:

- *multilingualism is a resource;*
- *that language should broaden access and enhance your success; and*
- *that the policy and its implementation should facilitate sound learning and teaching.*

MULTILINGUALISM AS A MINDSET

At SU, multilingualism does not just refer to institutional and individual multilingualism, but also to multilingualism as a way to promote inclusivity and awareness of diversity. It extends beyond creating spaces and structures to use multiple languages in academic, administrative, and social contexts or individuals' willingness to learn multiple languages. Multilingualism also reflects an attitude, or mindset, that we would like to foster at our institution. As a new Matie student, you will have the opportunity to adopt this mindset and join the campus community in promoting multilingualism.

You will see how we put this mindset into practice across the institution. At ceremonial occasions, such as the Welcoming event for first-year students and graduation ceremonies, Afrikaans, English and isiXhosa will be used. At meetings and social gatherings we will encourage the flexible use of multiple languages in the spirit of translanguageing*. It's a mouthful, but a multilingual mindset means that we will interact with others with mutual respect and tolerance for varying languages, as well as language skills, and encourage individuals to learn additional languages. In the lecture hall, lecturers, lecturing assistants, interpreters and you take co-responsibility for multilingualism by assisting each other to understand academic content.

What is translanguageing?

*Translanguageing is an umbrella term for a context in which multilingual persons use the linguistic resources at their disposal to engage with one another and with texts to create meaning.

Language Policy 2021 in a nutshell

UNDERGRADUATE LEARNING AND TEACHING

1 Academic modules are offered in one of the following language options:

- Separate lectures in Afrikaans and English (A/E): Although lectures would be in either English or Afrikaans, group work, practical sessions and tutorials will combine students from various language groups. One-on-one consultations with lecturers can be conducted in Afrikaans and English, provided that the lecturer is proficient in both these languages.
- Both Afrikaans and English are used in the same lecture (A+E): In these lectures, all information is shared in English with summaries in Afrikaans. As a first-year student, this option will provide you with access to simultaneous interpreting available either on-site or online. Questions will be answered in the language that you ask your question, depending on the language proficiency of the lecturer.
- One language only (A/E/X): Lectures can be in English or one of the other two languages, provided that the lecturer and all the students in the group are academically proficient in the language being used. Where possible, simultaneous interpreting in Afrikaans, English or isiXhosa may be offered online or on-site. Other learning opportunities (consultations and tutorials) are conducted in Afrikaans and English, provided that the lecturer is proficient in both these languages.
- Each faculty must submit a language implementation plan for the following academic year for approval by Senate. Once approved, the faculty must publish its plan on the faculty website. The plan indicates which one of the above three language options will be applied to each module. You can visit your faculty's website to view the language options relevant to each of your modules.

2 Learning material

- All prescribed reading material will be available in English.
- Prescribed reading material (excluding published material) will be available in Afrikaans where reasonably practicable**.
- Module frameworks and study guides will be available in Afrikaans and English.
- Where reasonably practicable** and where a need exists, isiXhosa and other languages may be used to reinforce concepts.

3 Assessments and question papers

Assessments and question papers are made available in Afrikaans and English, and students may complete these in either English or Afrikaans.

STUDENT COMMUNITIES

In student communities, such as residences and commuter student communities (also at times referred to by its former name, Private Student Organisations or PSOs), language must be used to ensure that everyone is included and can participate. During the annual Welcoming period in January/February 2023, you should understand all the information shared to help you settle into campus life.

The multilingual mindset of respect and tolerance for multiple cultures and languages is particularly important in these spaces. That's why student communities are also required to submit language implementation plans and report on their compliance and good practices.

LANGUAGE SUPPORT THROUGH THE LANGUAGE CENTRE

We want you to succeed and language should never be a barrier to doing so. Stellenbosch University's Language Centre is there to ensure that you access a variety of language support services right here on campus. These services include reading and writing development; language services that include translation, interpreting and editing; and research on language and language use. The Centre also offers modules in professional communication, academic literacies, and language acquisition for Afrikaans, English, isiXhosa and South African Sign Language.

You can visit the Language Centre's website (<https://bit.ly/3Pj65Wu>) to see what it has to offer that can assist you on your academic journey.

LANGUAGE COMPLAINTS

Our Language Policy 2021 sets the scene for an inclusive and diverse academic community that reflects our South African society's richness and provides the umbrella for language usage at SU.

In student communities, complaints regarding non-compliance with the Language Policy 2021 can be submitted to the house committee or residence head. If the matter cannot be resolved at the residence or commuter student community level, complaints can be referred to the Director: Centre for Student Communities, Mr Pieter Kloppe (pwk@sun.ac.za), or escalated to the Senior Director: Student Affairs, Dr Kelebogile Choice Makhetha (choicemakhetha@sun.ac.za).

You may submit complaints related to non-compliance in the academic environment via your faculty's complaints procedure. This entails

What can you expect?

You may be wondering what the impact of the new Language Policy will be on your academic life and language use in social spaces. Scan below for more details.

The webpage also contains an infographic that summarises the practical implications of the policy however, to understand the policy fully, it is best to refer to the Language Policy itself.

either reporting the complaint to a class representative or lecturer and then following it up with the departmental head, and where needed to the Vice-Dean or Dean of the faculty.

If the structures within student communities and faculties are unsuitable, you may submit your complaint to the SU Ombud for settlement in consultation with the relevant structures.

Please refer to the Language Policy Revision webpage if you have any questions about the 2021 Language Policy.

***“The Language Policy and its implementation are informed by what is reasonably practicable. In practice, this means that each situation will be considered on its merit and factors such as the number of students that will benefit from an arrangement; the language proficiency of staff and students; and the University's resources, timetable, and venue constraints. Other determining factors include the composition of each class group that also changes from year to year, or even from one semester to another, and unexpected staff changes.*”**

Centre for Student Counselling and Development **CSCD**

Our Centre for Student Counselling and Development (CSCD) is committed to providing the Stellenbosch University (SU) community with psychological, developmental and support services in our quest to be partners for success.

Our vision is to be a centre that is approachable, inclusive and client centred, with values that are based on a shared humanity. You will find counselling and educational psychologists, counsellors, social workers, psychology interns, student assistants, project/portfolio coordinators, a psychometrist, support officers and administrative staff at our offices. The CSCD consists of four units that endeavour to promote citizenship by facilitating wellness

and personal agency through their core functions. The CSCD has offices on the Stellenbosch and Tygerberg campuses.

Stellenbosch

37 Victoria Street, Stellenbosch

Telephone: 021 808 4707 /
021 808 4994 (office hours)

Tygerberg

When standing in front of the main entrance of the Education Building, turn left to the side entrance for disabled persons. The CSCD office (no. 0073) is on the right, before you get to the glass doors for disabled persons.

Telephone: 021 927 7020 (office hours)
Website: www.sun.ac.za/cscd

IMPORTANT to note

The CSCD runs a 24-hour emergency service in collaboration with ER24 (dial 010 205 3032 after hours and over weekends).

In case of an emergency during office hours, please contact the CSCD office at 021 808 4994 or e-mail them at supportus@sun.ac.za.

CAMPUS HEALTH SERVICE

The Stellenbosch University Campus Health Service (CHS) offers an integrated and accessible health service for students and staff and has an equipped dispensary too. CHS supports the University's wellness initiative for students and staff and their services are provided at the Stellenbosch and Tygerberg campuses.

The services at CHS include:

- Family medicine (including primary care)
- Health promotion and preventative medicine
- Travel medicine
- Sport and exercise medicine
- Occupational health

TRANSPORT ON SU CAMPUSES

You can get from point A to point B in and around the campus without always using motor vehicles. This will not only help reduce carbon emissions, which are detrimental to the environment, but help us reduce the number of vehicles on campus where the demand for parking always outweighs the number of parking spaces available.

WALK

Along various pedestrian routes.

CYCLE

Use a Matie Bike or your own bicycle. You can register for free to access SU bicycle sheds by sending an e-mail to fiets_bike@sun.ac.za.

JOIN AN EXISTING LIFT CLUB

Or create your own lift club. You will save money and protect the environment and won't have to search for parking on campus.

PARKING

Parking is limited. If you have no other alternative than motor vehicle transport, please apply for access to parking.

TRANSPORT ON STELLENBOSCH CAMPUS

Use the campus shuttle. Various shuttle services are available. Make sure you choose the right one.

DAY SHUTTLE

Operates from Monday to Friday between 07:00 and 17:30. Fixed times and routes, fixed pick-up and drop-off points are indicated on the website below. Runs between general parking areas on the periphery of campus and central campus.

NIGHT SHUTTLE

For students who study until late at night. Operates from Monday to Sunday on the hour between 18:00 and 02:00. Runs from the main entrance of the Neelsie within a 6km radius to private housing in the broader town.

IMPORTANT TO NOTE

You must book your trip online at my.sun.ac.za and click on Services and then Reservations: Shuttle Service to make use of the service.

TRANSPORT ON TYGERBERG CAMPUS

WALK

Along various pedestrian routes.

JOIN AN EXISTING LIFT CLUB

Or create your own lift club. You will save money and protect the environment and won't have to search for parking on campus. Win-win!

PARKING

Parking is limited. If you have no other alternative than motor vehicle transport, please apply for access to parking.

TYGERBERG SHUTTLE SERVICES

Provides transport to a nearby shopping centre and private housing within a 6km radius at set times.

Visit www.sun.ac.za/mobility-shuttles for more info.

TAKE YOUR SAFETY SERIOUSLY

Students should take the same safety precautions in Stellenbosch as elsewhere in South Africa. There are thousands of mobile phones, computers, and vehicles around to attract criminals.

FOLLOW THESE TIPS TO KEEP SAFE:

- Never walk alone, especially at night. Always plan to walk in groups, use the shuttle service, or request security to escort you.
- Keep your phone and valuables out of sight of other people.
- Carry a whistle and pepper spray at all times to be able to draw attention if needed. Criminals hate attention.
- Choose the safest route, even if it is not the shortest. Victoria Street and Bosman Street need to be the core of your route. At night a security officer is on duty in the mobile security kiosks on these roads.
- Avoid isolated areas, especially when you exercise early in the morning or late in the afternoon.
- Be conscious of your environment as criminals prefer to target someone not aware of his/her surroundings.
- Keep a safe distance if a motorist asks for directions.
- If you suspect that someone might be following you, change direction.
- Be a caring Matie: accompany a friend.
- Property on a car seat is tempting to a thief. Lock it in the boot.

Pedestrian escort service

If you need to move between campus buildings, or from a building to your car after dark (19:00 to 05:00), a security officer from Campus Security will walk with you. When in Stellenbosch, call 021 808 4891 or 021 808 4202 and wait for an officer to join you. You can also WhatsApp the Campus Security office in Stellenbosch at 082 808 2333 to request the service. Please note that voice calls to this number are not possible.

A pedestrian escort service is also available on the Tygerberg campus. WhatsApp the Tygerberg security office on 083 938 1841.

You can also save these numbers on your phone for:

MATIES SPORT

You! Yes, you!

Did you do sport at school? Are you considering joining a sports club at Stellenbosch University? Do it! We even offer an E-sports league. And if sport isn't your thing, you can still be part of the Maroon Machine. Like and follow us on Facebook, Twitter and Instagram and become part of the bigger Maties Sport family.

Maties Sport believes sport is a great contributor towards student success – regardless of whether you are a high-performance athlete or someone who just wants to be active and healthy.

Participation in sports teaches self-discipline and time management and offers crucial outlets for stress and tension. Both competitive and recreational sports provide students with opportunities to socialise, develop friendships and maintain a healthy and balanced lifestyle. Maties Sport accepts co-responsibility for the optimal holistic development of student-athletes and the empowerment of high-performance athletes.

That is why Maties Sport invests in its high-performance sports codes as well as its recreation and active lifestyle programme – offering ALL students the opportunity to engage in a healthier and happier lifestyle.

Maties Sport has **32 sports clubs**, making it easy to find a sport that suits your needs and skill level.

Our high-performance sports codes include rugby, hockey, netball, football, athletics, swimming, cricket and basketball. Competitive sports codes include cycling, e-sport, tennis, table tennis, squash, badminton, golf, gymnastics, rowing, canoeing, sailing, water polo, fencing and chess. Recreation and active lifestyle sports codes we offer include the equestrian club, underwater sports, judo, taekwondo, wall climbing, tug of war, volleyball, surfing, Ultimate (frisbee) and cheerleading. The Maties Parasport Club also offers athletics, swimming and cycling for people with disabilities.

You'll have the opportunity to participate in local as well as regional, national and even international competitions, such as:

- Varsity Cup, Varsity Sports, Intervarsity and USSA
- Regional and local leagues
- Residence leagues and competitions

You will benefit from:

- **The High-Performance Sport Unit**
- **The Recreation and Active Lifestyle Unit (RALU)**
- **The Centre for Sports Leadership**

SOME interesting stops on your way

Centre for Student Counselling and Development (CSCD) (no 8)

The CSCD provides psychological, development and career planning services to existing and prospective students in order to promote a well-informed, psychologically healthy SU community. The functions of the CSCD can be broadly divided into the seven categories of (i) academic counselling, (ii) occupational guidance and development, (iii) individual and/or group therapy, (iv) contemporary developmental workshops, (v) assistance for students with special learning needs, (vi) consultations and training, and (vii) supervision of intern psychologists.

The service offering, including group and individual therapy, is generally free of charge for all registered SU students. Fees will be levied for psychiatric consultations as well as for some workshops and occupational guidance.

Neelsie and Rooiplein (no 5)

The Neelsie, or the Langenhoven Student Centre, is named after Afrikaans author CJ Langenhoven, who was an SU alumnus. Here you will find several coffee shops and fast-food outlets (including halaal options), adventure and travel shops, health and beauty shops, bookstores, a convenience store, a laundry, clothing boutiques, plenty gift shops and several academic and business services. Standard Bank, Absa, Nedbank and FNB also have branches in the Neelsie.

The Rooiplein is the social gathering place for students. It also features The Circle, a bronze art installation that depicts eight female figures that symbolise the future of South Africa and leadership in the past, present and future.

SU Library (no 4)

One of the world's biggest subterranean libraries, SU Library boasts some 17 000 m² in floor space, which is equivalent to three rugby fields.

In the 1980s when the library was built, a lack of central land resulted in the decision to situate the facility below ground level. This also ensured that the history and aesthetic of the buildings bordering the Rooiplein remained uncompromised.

SU Library offers close to 1,2 million physical volumes, brand-new study and reading areas, 1 600 study booths, nine seminar rooms, a Learning Commons specifically for undergraduate students, the Carnegie Research Commons and an auditorium.

Faculty of Education (no 76)

Our Faculty of Education strives to play a leading role in education both locally and globally, and to help tackle educational challenges, particularly in the South African context. Our research includes education both within and beyond the school environment, and seeks to create synergy between teaching, research and community engagement.

Faculty of Arts and Social Sciences (no 77)

Our Faculty of Arts and Social Sciences hosts 18 departments. These represent the three broad disciplinary groups of Arts (including Drama, Music and Visual Arts), Languages, and Social Sciences (such as Psychology, Geography, History, Journalism, Political Science, and Sociology and Social Anthropology).

Academic Administration (Admin A) (no 1)

The services located in Admin A are Bursaries and Loans, Examinations, Courses, Timetables, Secretariat of Council and Senate, Student Information System Support (SISS), Admissions, and the Contact and Client Services Centre.

Faculty of Law (no 72)

Our Faculty of Law is housed in the Old Main Building, situated in the centre of Stellenbosch, on the corner of Victoria and Ryneveld streets. The building was inaugurated in 1886 to mark the 200th anniversary of the establishment of the town.

Closely cooperating with the Faculty of Law is the Law Clinic situated in Crozier Street. This full-fledged attorneys' office provides legal services to marginalised members of the community, while final-year law students and candidate attorneys receive valuable exposure to the practical application of the law.

Faculty of Economic and Management Sciences (no 58-60 | 67)

Our Faculty of Economic and Management Sciences offers a range of degrees, from Accountancy and Industrial Psychology, to Statistics and Actuarial Science.

The South African business sector desperately needs professionals with both the skills and innovative ideas to compete in local and international markets. With its strong financial and management approach, this is exactly the type of graduate the Faculty of Economic and Management Sciences delivers.

Faculty of AgriSciences (no 45, 46, 53, 55, 61, 64, 78, 81–83)

Our Faculty of AgriSciences is rated as the best agriculture faculty in Africa and among the top 50 internationally. It helps meet the need for young minds to solve real-world problems such as food insecurity, poverty, environmental sustainability challenges and climate change in our country, on our continent and beyond.

AgriSciences' programmes are offered both on campus and at the Welgevallen experimental farm, which provides the perfect combination for those interested in science and loving the outdoors.

Faculty of Science (no 51, 53–57, 59, 62, 65, 66, 69, 70)

Step into the fascinating world of science at our Faculty of Science, boasting more than 100 years' teaching experience. Choose from a wide variety of degree programmes – from Botany and Zoology to Computer Science, Earth Sciences, or Chemistry and Physics.

Did you know? SU is the only university in South Africa offering a BSc degree that focuses on materials technology from a chemistry and polymer perspective.

Faculty of Engineering (no 47–52)

Established in 1944, our Faculty of Engineering is one of our flagship faculties. It offers modern, cutting-edge teaching and learning facilities, its own faculty library, and a cafeteria.

Among others, Engineering has a 3 000 m² hydraulic laboratory – the largest in South Africa. It is also the only faculty of its kind in the southern hemisphere to have designed and built microsatellites that were launched into space.

SU Botanical Garden (next to no 18)

Our very own Botanical Garden, located in the historical centre of Stellenbosch, is the oldest university botanical garden in South Africa. The compact garden houses an enormous diversity of plants, both indigenous and exotic. The Katjeepering restaurant also offers a tranquil spot to enjoy a light meal in lush surrounds.

Thank you for joining us. For the very latest information on studying at SU and both online and face-to-face events, visit www.maties.com.

Faculty of Medicine and Health Sciences (not on this map)

The Faculty of Medicine and Health Sciences was established in 1956 and is one of Africa's leading faculties for medical studies. Departments and divisions include Medicine, Physiotherapy, Occupational Therapy, Nutrition, Speech-Language and Hearing Therapy, and Nursing and Midwifery.

It is situated next to the Tygerberg Academic Hospital on SU's Tygerberg campus.
